

Dear Valued Patients,

As I reflect on the past 20 years of serving this wonderful community, I want to take a moment to express my heartfelt gratitude to each and every one of you. It has been an incredible privilege to be part of your lives and to help care for your smiles. The trust you've placed in me over the years has been truly humbling, and I am deeply thankful for the relationships we've built along the way.

With that, I am excited to share some important news: as I begin to transition into the next chapter of my life, I am thrilled to introduce **Dr. Josh Lansing** and **Dr. Stacey McDonald**, two exceptional doctors who will continue to provide you with the highest quality care. Both Dr. Josh and Dr. Stacey bring a wealth of knowledge, expertise, and a deep commitment to patient care that mirrors the values I've always strived to uphold.

Dr. Josh has advanced training in dental implants and cosmetic dentistry, and I know he will be a great fit for the practice. He has a passion for helping patients improve not only their smiles but their overall well-being.

Dr. Stacey, with her advanced training in airway dentistry, sleep apnea, and TMJ, is especially passionate about helping patients breathe better and sleep more soundly, which I believe will make a tremendous difference in the health of many of you.

I am beyond excited to transfer my legacy to such dedicated and talented professionals. I truly believe you will enjoy meeting them as much as I have, and I have no doubt they will continue to provide you with the outstanding care you've come to expect.

Thank you once again for allowing me the honor of serving you for the past 20 years. I am excited for you to meet Dr. Josh and Dr. Stacey, and I know they are eager to get to know each of you as well.

With gratitude and warmest regards,

Dr. Feldman

Meet DR. LANSING & DR. MCDONALD

Meet Dr. Lansing

Dr. Lansing is a skilled dentist with advanced training in dental surgery and cosmetic dentistry, dedicated to helping patients achieve their best smiles and lifestyles. He has extensive training in dental implants and is pursuing his diplomate status in implantology.

Outside the office, he's an avid golfer, always working on his swing and always game for another round. During the winter he hits the slopes on his snowboard and tries to heliski once a year when his wife lets him.

Fun fact: Dr. Lansing once competed in a nationwide spelling bee and, despite his impressive skills, lost after misspelling *sausage*. But he's the first to laugh about it—because, after all, we all have our moments!

Meet Dr. McDonald

Dr. Stacey is a passionate advocate for her patients' overall health, with a special focus on improving their quality of life through better breathing at night. With advanced training in airway dentistry, sleep apnea, and TMJ, she's dedicated to helping her patients breathe better, sleep better, and live healthier lives—because, after all, oxygen keeps us alive!

A proud 4th-generation native of Entiat, Dr. Stacey was raised in the stunning Entiat Valley and is excited to bring her expertise back home. She's committed to providing a collaborative approach to healthcare, bridging the gap between medical and dental care to ensure patients receive whole-health, comprehensive treatment.

When she's not improving her patients' health, Dr. Stacey enjoys spending her time outdoors—whether she's hunting, gardening, fishing, golfing, or just enjoying quality time with her family.

Fun fact: Dr. Stacey absolutely hates swimming with fish—whether it's fresh water or salt water but loves to go fishing! And in 2023, she checked off a major bucket list item by hunting a once-in-a-lifetime Washington Bull moose!
